

GWT Grammar Workshops

Summer 2008

The grammar workshops listed below are designed to deal with the most common problems found in GWT essays. Each workshop focuses on a particular grammatical issue and provides lots of examples and exercises, including a short writing assignment. Participants will leave the workshop with a clear understanding of the particular grammatical principle that is the target of the workshop and will be on a path toward eliminating that problem from their writing.

GWT Grammar Workshop Schedule				
Workshop	Day	Date	Time	Facilitator
